

Product: **Personal Paint Classic New 68k version**

Author/Company: Andy Broad - Developer
Original 68K code - Cloanto

Version: Version 7.3 68K

Product/Description & Overview:

Personal Paint Classic is a completely reworked update of the venerable palette mapped bitmap graphics painting and image processing program originally developed by Cloanto for the Classic AmigaOS. The new version, which include a whole host of new features, works under AmigaOS, AmigaOS4.1 and Emulation under Amiga Forever and WinUAE.

Personal Paint Features

Includes all of the main features of the new PPC version:-

- Works with the Classic AmigaOS and AmigaOS4.1 and and emulation under WinUAE and Amiga Forever
- Totally integrated with the AmigaOS Workbench
- Supports AmigaOS screen dragging
- Smoother interaction with the OS4 screen dragging system
- True colour animation frame thumbs in the StoryBoard window
- High resolution gadget imagery and thin borders style GUI option for a more modern look
- 9 new built in brush shapes
- 100 new Custom Brushes
- Pressure sensitive drawing
- Dithered transparency
- New Airbrush Linemode
- Extended paint functionality with image processing tool
